25 **LISTING OF CLAIMS**

26 I Claim:

27 1.     (Original)     A sports memorabilia apparatus comprising:

- 28           a.     a medallion having a display surface;  
29           b.     a puck;  
30           c.     means for said puck to releasably engage said medallion;  
31           d.     indicia, said indicia appearing on said display surface of said  
32 medallion whereby said indicia is displayed on said medallion when said  
33 medallion and said puck are engaged.

1     2.     (Original)     The apparatus of Claim 1 wherein said indicia is  
2     embossed upon said display surface of said medallion.

1     3.     (Original)     The apparatus of Claim 2, said means for said puck to  
2     releasably engage said medallion comprising: said puck defining a cavity,  
3     said cavity having an interior surface, said interior surface releasably  
4     engaging said medallion.

1     4 - 6. (Cancelled)

1     7.     (Original)     The apparatus of Claim 3 wherein said puck is composed  
2     of a resilient puck material and said medallion is composed of a substantially  
3     rigid medallion material.

1 8. (Amended) The apparatus of Claim 7, said means for said puck to  
2 releasably engage said medallion further comprising: said interior surface of  
3 said cavity having an interior dimension, said medallion having an external  
4 surface, said external surface having an external dimension, said external  
5 dimension and said internal dimension being selected so that said interior  
6 surface of said cavity exerts a pre-selected force against said external  
7 surface of said medallion when said puck and said medallion are engaged.

1 9. (Original) The apparatus of Claim 8, said means for said puck to  
2 releasably engage said medallion further comprising: said external surface of  
3 said medallion engaging said interior surface of said cavity at an area of  
4 contact, said interior surface of said cavity being configured to pre-select  
5 said area of contact when said puck and said medallion are engaged.

1 10. (Original) The apparatus of Claim 9, further comprising: secondary  
2 indicia appearing on said puck or said medallion.

1 11. (Original) The apparatus of Claim 9, further comprising: means for  
2 displaying said puck and said medallion engaging said puck.

1 12. (Original) A sports memorabilia apparatus comprising:

- 2 a. a medallion having a display surface;
- 3 b. a puck adapted to engage said medallion; and
- 4 c. an indicium appearing on said display surface.

1 13. (Original) The apparatus of Claim 12 wherein said engagement  
2 between said puck and said medallion is a releasable engagement.

1 14. (Original) The apparatus of Claim 13, said adaptation of said puck  
2 to engage said medallion further comprising: a cavity defined by said puck,  
3 said cavity having an interior surface.

1 15 - 16. (Cancelled)

1 17. (Original) The apparatus of Claim 14, further comprising: said  
2 interior surface of said cavity engaging said medallion at an area of contact,  
3 said interior surface of said cavity being configured to pre-select said area of  
4 contact.

1 18. (Original) The apparatus of Claim 15 wherein said interior surface  
2 of said cavity being configured to apply a predetermined force against said  
3 medallion when said medallion and said puck are in engagement.

1 19. (Original) The apparatus of Claim 18, further comprising: secondary  
2 indicia appearing on said puck or said medallion.

1 20. (Original) The apparatus of Claim 19, further comprising: a base; an  
2 upwardly projecting pin attached to said base; a hole defined by said puck, said  
3 pin engaging said hole.

4 21. (New) The apparatus of Claim 18 wherein said interior surface  
5 defines a high point in cross section, said high point in cross section defining  
6 said area of contact, said area of contact being annular.
